

# How to Report an Issue to OpenConstruction

## 01 Prepare Issue Description

Before you begin, identify the affected resource or page and copy its direct URL. Prepare a short description of what is wrong, what you believe should be corrected, and an authoritative source or screenshot if it will help verify the issue. Never include passwords, access tokens, or sensitive personal information.

### Before You Start

#### Affected page or resource

Know what record or page you are reporting

#### Direct URL

Copy the page or record URL

#### What is wrong

Describe the problem

#### Expected correction

State what should be changed, if you know

#### Evidence or screenshot

Include an authoritative source or screenshot when useful

#### Contact information

Use an email address where the team can follow up

Rasterized CAD images · 4996 models

Proposed by @SMARTLab

MODEL2026

Multi-task Crack Foundation Model for Engineering-Reliable Crack Representation

### 03 Navigate To Contribute Page - Segment

Under Improve Existing Records, select Report Correction.

## Contribute to OpenConstruction

### WAYS TO HELP

#### Propose Resources

- Add a dataset, model, workflow, or OER using the workspace submission form.
- Share links, source metadata, and enough context for others to evaluate the resource.
- Help fill gaps in tasks, modalities, and domains across AEC.

Submit resource →

#### Improve Existing Records

- Correct metadata, add missing licenses, improve links, and clarify abstracts or tags.
- Strengthen discoverability by refining tasks, modalities, and structured fields.
- Report broken links, outdated resources, or inconsistent labels.

Report correction →

#### Review and Steward

- Review proposed additions for quality, attribution, and licensing completeness.
- Help new contributors prepare submissions that are easier to merge and maintain.
- Support module-level curation as the catalog grows.

Contact us →

#### Build the Platform

- Contribute to schemas, validation scripts, benchmarks, UI improvements, and guides.
- Help shape roadmap priorities through issues, support requests, and implementation work.
- Active contributors may grow into longer-term stewardship roles.

06 Specify Issue Details (1) (2)

Make the report easy to verify by starting with the name of the affected resource or page. Select the issue type such as broken link, metadata correction, access problem, duplicate records, platform feedback, or others.

Library

Activity

Credentials

Settings

OPENCONSTRUCTION SUPPORT

Report issue

Report broken links, metadata problems, access issues, or platform feedback.

Issue details

Issue type

Metadata correction

Page or resource URL optional

https://www.openconstruction.org/...

Summary

Short description of the issue

Details

What happened? What should be corrected? Include enough context for maintainers to review.

Contact

Name

Email

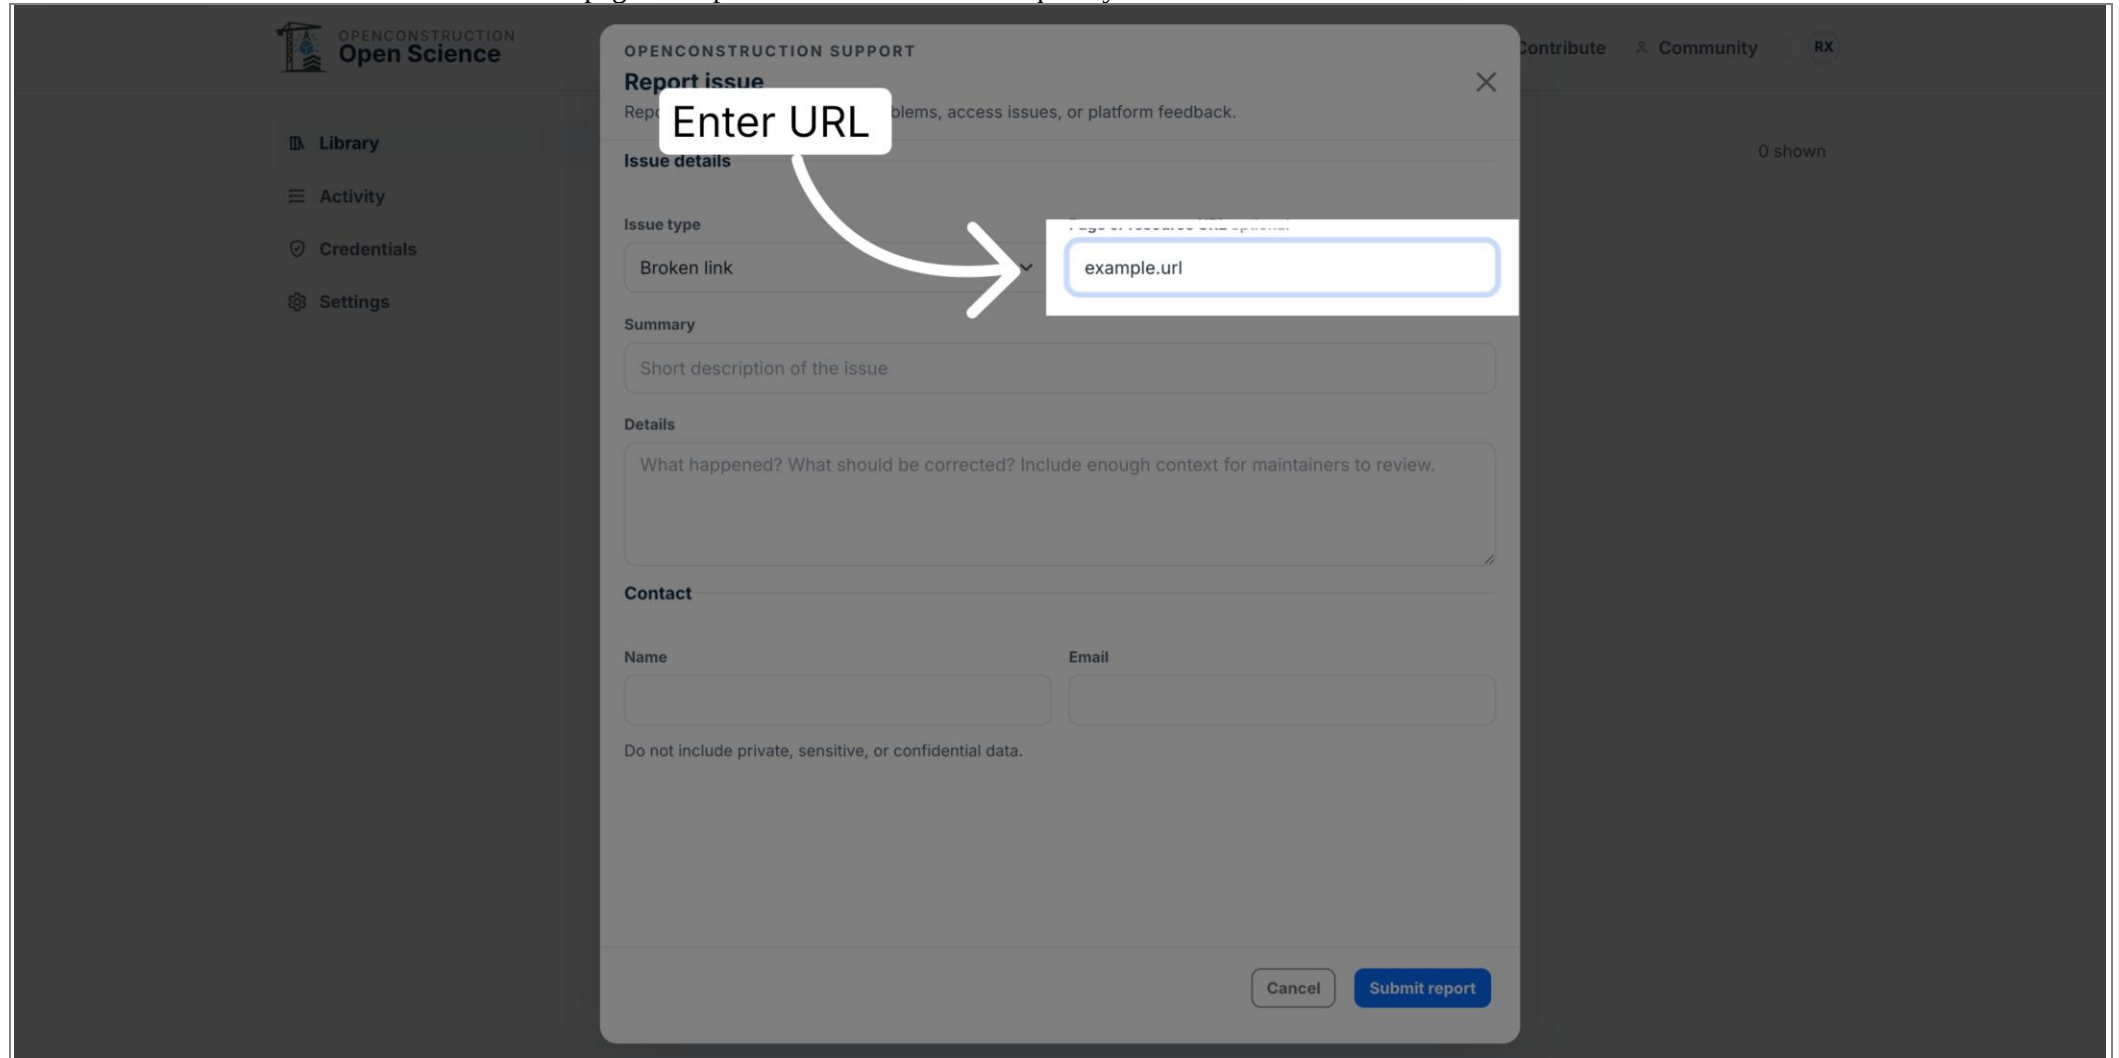

Do not include private, sensitive, or confidential data.

Cancel

Submit report

## 07 Enter Resource URL

Enter the direct URL of the affected resource or page to help the team locate the issue quickly.

The image shows a web application interface for reporting issues. On the left is a sidebar with the 'Open Construction Open Science' logo and navigation links: Library, Activity, Credentials, and Settings. The main area displays a 'Report issue' form titled 'OPENCONSTRUCTION SUPPORT'. The form includes a description of its purpose, an 'Issue details' section with a dropdown for 'Issue type' (currently set to 'Broken link'), a 'Summary' text field, a 'Details' text area, and a 'Contact' section with 'Name' and 'Email' fields. A callout box with the text 'Enter URL' and a white arrow points to the 'example.url' text in the 'Broken link' dropdown menu. At the bottom right of the form are 'Cancel' and 'Submit report' buttons.
